“ Terry Bullock was our closest and dearest friend from the moment that we arrived in Topeka in summer 1996. We were immediately taken into the Bullock fold, and from that moment on our lives were richer, grander, and just more fun.

There are simply too many stories to tell: the tales range from my nick-naming his maroon Lincoln Town Car “The Judgemobile” to our frequent Saturday day-long, coffee-laden antique outings through the gorgeous Flint Hills of Eastern Kansas.

This photo was made in his Palm Springs condo dining room after our wedding in October 2008, for which Terry offered us his condo and exclusive use of The Desert Fox (the Palm Springs sea foam green Town Car – he named that one). The original plan was for Terry to be with us that week, but when at the last minute he was called to teach at the Washburn Law School, Terry insisted that we go ahead, pick up the condo and car keys, stay the week, enjoy the condo, and proceed with our wedding plans. There was to be no discussion or change of plans, and we did just as he said.

Terry was like that: always supportive, marvelously resourceful, kind to a fault, generous beyond measure, ever the eternal optimist, insistent that life lived to its absolute fullest. The world is a duller and sadder (and strangely quieter) place today without "His Judgeness." We will always love him and be thankful for his friendship and presence in our lives.

“ The Honorable Terry Bullock has been an inspiration in my life since first meeting him after pledging in the spring of 1968. I am confident that others feel the same. But perhaps the most meaningful contribution in his life is what he did for all the children of Kansas in rendering the correct decision in the Montoy case. He revealed that he was truly a man of courage, wisdom and integrity. Our state will forever reap the benefits of his vision of the importance of education.

“ Memories of some people stay with you for a lifetime. Terry Bullock was one of those people. I first met him during rush week in '59. He was bigger than life with a welcoming personality. He was one of many in the DU house who impressed me. Later on His singing skills came to the forefront assisted by Frosty White. His devotion to the chapter and his skill in intrafraternity relations were also notable. I ran into him later and I think he might have been in law school. He had lost a substantial amount of weight and I wouldn't have recognized him except for the cheery reception he gave me and he was still wearing the same hair cut! My condolences to the family.

“ I, and quite a few other Manhattan High 1962 graduates, first met Brother Bullock when he and a couple of other K-State DU Alums decided that we should pledge Delta Upsilon. We followed his advice, and in 1963 the group of us became active members of the K-State Chapter. Shortly thereafter began our frequent pilgrimages to Topeka to discuss Chapter matters with Terry. His advice was always correct and I do not recall ever ignoring it.

I spent '64-'65 in Giessen, West Germany, but when I returned I found a much-improved Chapter that was divided about its future direction. After I was elected President in the spring of '66 and again the following semester, the number of my visits to Terry increased dramatically. The Chapter officers had implemented a number of innovative ideas, and Terry encouraged me to have them write them down, with my principal task rewriting them into a single, coherent document.

I typed, retyped, and sent drafts to Terry – and he returned edited versions which I retyped. Finally he decided that other DU chapters could benefit from K-States' experience, and he arranged to send our lengthy report to the National DU office for them to distribute. It was titled “The Kansas Report” because he wisely felt it would

more likely be read with that title, given that the K-State Chapter was relatively young. Terry opined that, as a result of our report, our Chapter might even win an award or two at the national convention in '67. Once again he was right!

The K-State Chapter won the Sweepstakes award for the first of many times that year! It happened because Terry gave us the direction necessary to organize our Report, and he pushed us when it was necessary to see the task through to completion. I have no doubt that the Chapter's subsequent wins were also influenced by his advice and wisdom.

It is all the more remarkable that Terry's impact on K-State DU as well as the National DU was greatest after he graduated. His character and beliefs influenced all of those around him, likely including thousands of DU's who never met him, as well as everyone with whom he interacted. I will miss him very much.

“ Terry gave a speech at a DU dinner 6 or 7 years ago after a football game. It was awesome beyond belief and I did not know whether to stand and cheer, so did nothing. I think that the whole room of DUs felt the same way. I am so sorry that I did not get to tell him how much that speech meant.

“ I was sad to see of Terry's passing. I grew up in Wilsey although 7 years younger , have many fond memories of Terry. My memory comes from fact that Terry was age wise between my two brothers at Wilsey. He indeed was a great man and was a good example for all that knew him.

“ I am sorry to hear about the passing of brother Terry. It was through his and brother Frosty W. vocal efforts that we were able to make a good impression singing our songs. We were fortunate to have him as a leader for the early years in our chapter as well as on the national level. Hopefully we all will be able to see him again someday.

“ Judge Bullock was my Ethics teacher in 1984 at KU Law. He was a wonderful teacher. A particularly clear memory of him was our final exam. It was 50 multiple choice questions, just like the test we would all have to take to become lawyers. He told us that we graded it ourselves because if we were dishonest he would see us later when we faced disciplinary charges. He taught me the difference between professional ethics and morality and why we, as lawyers, had to understand that difference and respect it. His teaching has served me well in my 34 year (and counting) career.

“ Susan:
Thinking of you and hoping the lifetime of memories of your Dad will be of comfort. I will always remember the time you invited me to dinner and he joined us. It was a pleasure to meet him and hear some of his stories! He was so charming, funny and...very interesting.

With deepest sympathy-

“ Susan and John: It is with great sadness that I write to you. I have heard about you and always wished I could have had the chance to meet you. Terry was a wonderful person. My memory to share is when we were having final week--I a freshman and he a sophomore. He was telling me what he was studying for finals, and he didn't mention any music class. I asked why he was majoring in music, and we deduced it was probably a suggestion of his mother. I then told him to ponder the idea of what he might rather study. We talked the next day, and he was so pumped up---he had decided law. I said that was quite a switch, and perhaps he should take a class or two in the summer to test it. The rest is history, as they say. We had great times singing together and dating. Although I didn't see him often, he always had a special place in my heart. We talked on the phone several times in the past year, and I heard of your activities and accomplishments. He was a super guy, and I will miss him. God be with you!!
