“ *Jean and John - We send our thoughts to you at this sad time. We both have fond memories of your mom during our childhood and growing up years. May your wonderful memories comfort you both.*

“ *Jean - I wanted you to know I am sorry for your loss. I do realize Lois was well cared for and she had limited memory. Losing a parent is still sad even though they do not have the same quality of life we wished for them. Seeing her notice, I remembered some of the great times we had on 37th. I especially remember Mom and Lois making all those matching doll clothes for our Toni dolls or how they made us those square dancing dresses for one dance! If you have a chance, send me your email address so we can get together.*
