PS

“ *Richard and family:*

My thoughts and prayers with you during this time. Marian was a special person and touched the lives of those that got to know her.

I still remember the story she told several years ago about leaving to go to school and forgetting to open the garage door.

I can still remember the night my grandmother had a heart attack. Richard came to the hospital and Marian went over to my cousin's house to watch her son so that she could come to the hospital.

Richard and Marian have always been there for me and my family when we needed something.

Everyone must remember that she is no longer suffering and that God will take care of her because of her faith and beliefs in him.
