“ Enjoyed my many years of working with Vicki. She was always kind and nice to the new guy. I also remember several work Christmas parties getting to play Pitch with her. "Shoot the moon", Vicki.

“ I miss my grandma very much and can't even describe how much I love I have for her. She was my puzzle buddy for the last few years and was always up for a lunch date. I will always remember how she always had arts and crafts for me to do when I was younger and loved encouraging my creative side!❤️

“ I really enjoyed working with Vicki over the many years at Capitol Federal. A couple of things she will remembered for, hard worker, dry sense of humor and a card playing passion. Rest In Peace my friend.

“ Vicki and I worked at Capitol Federal for many years and enjoyed many breaks and lunches together and she was a good friend. She enjoyed her son and daughter so much and her grandchildren and shared so much about them and how supportive she was of them. After retirement we had a group that we went out to lunch with each week. We will miss her.

“ Vicki was a friend who had a big heart, was very kind, a good artist and a better bridge player! We met at a YMCA exercise class and enjoyed coffee and discussion following class. She will be missed by many.

“ I thought of Vicki as a good friend. We met several years ago in an exercise class at our local YMCA. She immediately became a valued member our coffee group following class discussing local issues, politics when we had to, and frequently discussed tech issues. Her children and grand children were very important to her. She was a talented artist and just an all round nice caring person. Even though she was obviously suffering from the illness which took her life she continued to try and join us for coffee right to the end. I will miss her greatly.

“ My grandma was one of the strongest humans I know. Constantly trying to stay active/productive even on bad days. I used her as motivation for a very long time, any day I felt like not going to work or going to the gym, I know grandma was pushing her limits. That is how I will forever remember you as. Love your grandson, Brandon
