

Whylee Christopher Woosley

June 22, 2025 - July 6, 2025

In loving memory of Whylee Christopher Woosley

Whylee Christopher Woosley was only two weeks old when he passed away. He was born with differences in the chambers and vessels of his heart. The condition, called Hypoplastic Left Heart Syndrome (HLHS). This limited the circulation to his tiny body and left him less equipped for this big scary world.

Whylee showed us he was a fighter, inside and outside of the womb, with no matter the cost. He had so much stamina within him. We know he could have made a big difference in a world that is less than fair. He has already changed our hearts forever, and had shown incredible strength and courage throughout his time on earth.

Whylee was proceeded in death by his nana, Tina Barkley, and his great-granny, HoneyBea Barkley, in whose care he will be, forever protected.

Whylee is survived by his biggest fans, including his parents, Destiny Barkley and Dylan Woolsey; siblings, Harmony; Ava; Jonah; and his identical twin, Woodie; and his grandmother, Jeanette Morrow.

Whylee will always be cherished, loved, missed & forever we will be, Wild4Whylee.

“ To my Sweet Cousin Destiny and your beautiful family, you each have my deepest sympathy and love during this difficult time. I watched all your posts and photos along the way. You were so brave and strong stuck in a hospital in a different city away from your family. I am sorry being in Arizona I cannot attend. But my heart will be there.

Rest in peace my sweet little cousin 🙏💕🙏💕
